

TESTIMONIAL from Jane Perera (Sep 2019)

What an incredible three days walking from the woods of LLanerchaeron to the tranquil ruins of Strata Florida Monastery! Chris thank you so much for this guided pilgrimage where you have taken us through a range of landscapes: ancient woodland, mossy banks and paths, quiet villages and churches, rivers and streams, an iron age fort, hilltop open access land, long abandoned cottages and sedge marsh. I've learned to identify wildflowers such as tormentil and butterbur while red kites and buzzards have circled overhead. I've waded across a flooded stream in improvised plastic bag wellies. I've appreciated your local knowledge (including a visit to Llandewi Brevi of Little Brittan fame- "the only gay in the village"!) and enjoyed your company and expert walk leadership. Time for quiet reflection and time for conversation. Even an introduction to the ideas of the thought-provoking Eckhart Tolle. Perfect!
