

Testimonial for Chris Smith @ GuidedPilgrimage

On 06/08/2019, Chris led a heritage trail walk for our 2019 Heritage Summer School. She guided a group of 17 international students from China and the Ukraine from Ponrhyfendigaid to Strata Florida Abbey and then through Long Wood Community Woodland to Lampeter looking at all the archaeological and heritage sites along the way. The aim was to literally experience the past by walking/moving through the landscape in the same way as it was experienced by our ancestors.

Chris beautifully and thoughtfully opened the mind of the students for this experimental and experiential approach to heritage and dealt in a marvellous manner with language barriers and cultural differences.

The logistics were perfect, the provided lunch was very delicious and she offered water and pick-me-ups along the way a thoughtful treat.

We are looking forward to work with Chris and GuidedPilgrimage again.
